

# FOOD SYSTEMS SOLUTIONS DIALOGUES

## *ENGAGING for food systems transformations*

Wednesday 12 April 2023

Session I – 8:00 – 9:30 AM CET | Session II – 16:00 – 17:30 CET

### Background

As part of the follow-up process to the Food Systems Summit, the Hub has established the Stakeholder Engagement and Networking Advisory Group (SENA Group) with representatives from Youth, Women, Indigenous Peoples, Producers and Private Sector. The objectives of the SENA Group are to facilitate stakeholder interaction and communication, provide technical advice for participatory consultation methods, help identify opportunities for action and critical gaps, promote inclusiveness and transparency, activate existing networks, and act as thought leaders to disseminate core messages from major stakeholders.

### Purpose of the Dialogue

In this Dialogue, members of the SENA Group will highlight critical priorities for the Stocktaking Moment from a diverse range of perspectives. As per practice, the virtual event will bring together food systems National Convenors and the broad ecosystem of support to exchange about opportunities, priorities, and challenges for accelerating action for food systems transformation. Additionally, the dialogue will provide the opportunity to gather more information on the work of the SENA Group, as well as how it is shaping the implementation of food systems transformation in different regions.

### Agenda:

Header	Header
